1. Problem Title : Online Donation Management System

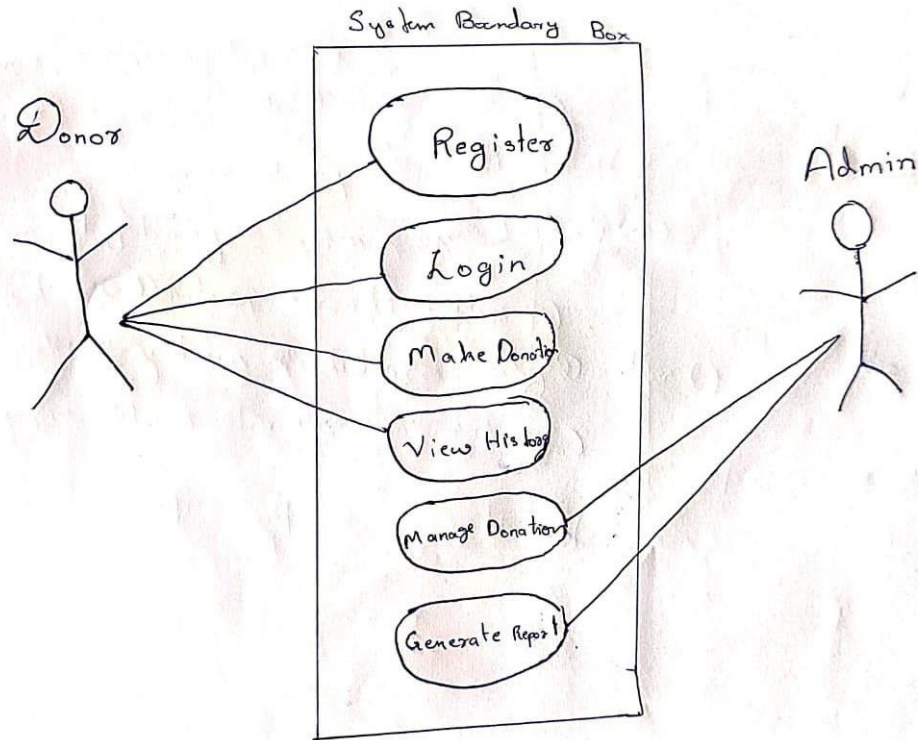

STRUCTURAL DESIGN

2. Class diagram

BEHAVIUIORAL DESIGN

3. Use-case diagram

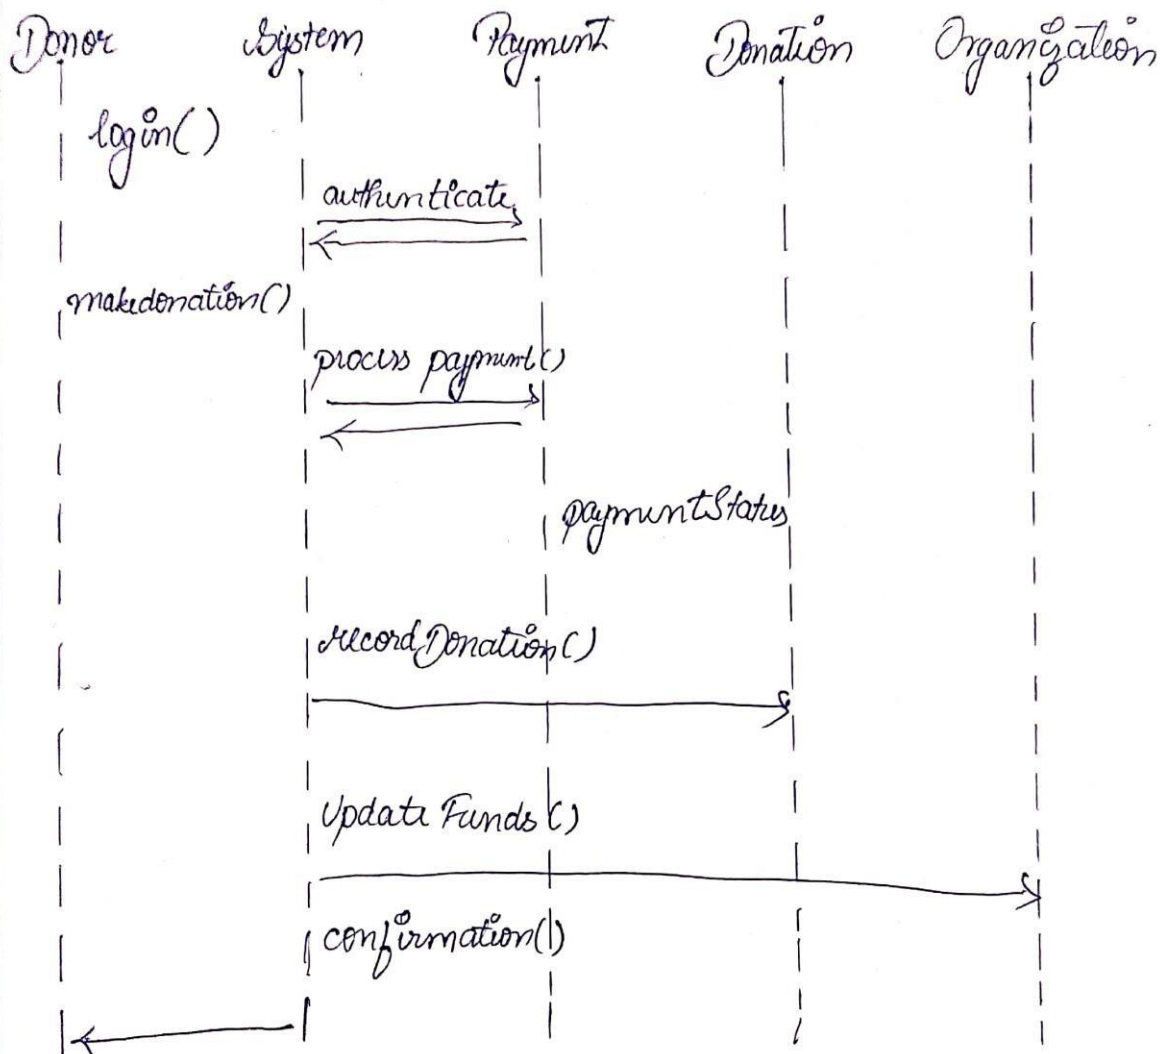

4. Sequence diagram (use UML notations)

a. Use Case: Making Donation

A donor logs into the system and selects an organization to donate to. The system processes the payment through the payment module. Once payment is verified, the donation is recorded and the organization's funds are updated. Finally, a confirmation is sent to the donor.

Sequence diagram (using UML)

a) Use case diagram

b. Use Case: Generate Report:

The admin requests a report of all the donations. The system retrieves donation data, generates a report, and displays or exports It for the admin.
